Or contact the Economics and Strategy Group Administrator
Lynne Woolley, SW907b, Extension 3038
Email: l.woolley@aston.ac.uk

Pre-requisites for the module:

BSM933 International Business

Mode of Attendance:

On Campus

Module Objectives and Learning Outcomes:

BSM933 International Business outlines the increasing importance of the international dimension of business and introduces the major theories and frameworks for understanding and analysing international business strategies. The objectives of this module are to build on BSM933 to broaden and deepen the students' knowledge of

international business strategies and the contexts in which they are developed and implemented and thus to prepare students either for an internationally oriented career in business or for international business research.

At the end of the module, students should have:

- > the ability to assess the effects of major economic, management, policy and technical trends and factors on businesses operating internationally
- > the understanding of shifting competitive advantage and international strategy formation and evolution in advanced as well as emerging/transition economies, and
- > the ability to use relevant models in appraising and formulating international business strategies.

Module Content:

- Week 1:** Introduction to Module + Globalisation
- Week 2:** International Trade Theory
- Week 3:** Regional Integration (Guest lecture)
- Week 4:** The Foreign Exchange Market
- Week 5:** Entrepreneurship & Innovation (Guest lecture)
- Week 6:** Multinational Firm strategy
- Week 7:** FDI and its effects on host and home economies
- Week 8:** International Technology Transfer (Guest lecture)
- Week 9:** Coursework Preparation and Module Revision
- Week 10:** Examination

Corporate Connections:

Many of the sessions will use material developed from the lecturer's and guest lecturer's own research and consultancy work. In addition, extensive use will be made of international business case studies and examples.

International Dimensions:

The entire module is international in nature with a focus on international business strategy in the context of a changing international environment. In addition, the coursework for this module is linked to international study visits organised in collaboration with Aston Business School's European partner institutions.

Contribution of Research:

Teaching on this module is informed by lecturers' research and consultancy in the areas of collaboration between firms in industrialised and emerging /transition economies and the development of capability and competitiveness of firms these economies.

Method of Teaching:

A combination of lectures, interactive case study discussions, syndicate group work and syndicate group presentations will be employed. Lectures will highlight the major issues themes and business strategies and relate them to theoretical models and frameworks. Case studies and other syndicate group work are intended to (a) provide experience in the application of theories and frameworks in examining international business strategies, (b) develop more in depth understanding, and (c) cultivate abilities to critically appraise theories and strategies. A number of guest lecturers with expertise and experience in different areas of international business research will contribute to the module. There is a significant amount of reading that is required for this module. In addition students are encouraged to write and hand in drafts of essays and coursework well before the examination in order to receive feedback on how to improve their performance.

Method of Assessment and Feedback:

Two hour closed book examination (70%). Coursework (30%).

Learning Hours:

Contact and directed learning (lectures /syndicate groups / discussions / presentations)	27
Private study, reading and additional group work	91
Company study group work	30
Assessment	2
Total	150

The following essential and recommended readings are subject to change. Students should not therefore purchase textbooks prior to commencing their course. If students wish to undertake background reading before starting the course, many of the chapters/readings are available in electronic form via on-line library catalogues and other resources.

Essential Reading:

Hill CWL (2009), *International Business : Competing in the Global Marketplace*, 8th Edition, London: McGraw-Hill and Irwin.
