Programme Outcomes, Learning and Teaching and Assessment Strategies			
<u>A. Knowledge and Understanding</u>			
	On successful completion of their programme, students are expected to have knowledge and understanding of:	Learning, Teaching and Assessment Strategies to enable outcomes to be achieved and demonstrated	
		Learning and Teaching Methods	Assessment Methods
A1	the theories, concepts and empirical issues that underlie the subject of Finance and Financial Regulation; their interpretation and the manner in which both Finance and Financial Regulation are intertwined	Each module will be taught over a period of 9 weeks, using a mix of seminars, tutorials, group discussions and case studies. Students will be provided with the appropriate Resource Packs for each module backed by supplementary readings, exercises, and past examination papers (where appropriate). For some modules, students are expected to do case study presentations and write their case study reports	Unseen examination paper Assessed course work An independent piece of work via an individual Dissertation
A2	the importance of Financial Regulation for the conduct of business and economic activity		
A3	the information contained in the financial reports of firms, how they are determined and their importance in relation to firm valuation and Financial Regulation		
A4	the financial instruments used by firms to manage risk, their valuation and impacts on financial performance		
A5	the financial, legal and economic environments in which businesses operate and the various business codes of conduct that apply		
A6	the impacts of legislation and regulation on the conduct of finance and how they can assist or hinder both financial activity and decision making		
A7	the theoretical and empirical issues associated with the subject matter such that students will be able to undertake an independent piece of empirical research for their Dissertation		

B. Intellectual Skills			
	On successful completion of their programme, students are expected to be able to:	Learning, Teaching and Assessment Strategies to enable outcomes to be achieved and demonstrated	
		Learning and Teaching Methods	Assessment Methods
B1	demonstrate competence in the subject area backed by critical reasoning	Tutorials and group discussions to support student learning	Oral presentation to test students' knowledge and understanding, as well as their ability to solve problems related to regulation and finance
B2	demonstrate high levels of analytical and interpretative skills that appropriate for particular problems in finance and financial regulation	Dissertation supervision to help student further develop appropriate analytical, research and interpretative skills, and to help them present such work in an appropriate manner to interested parties	Written assignments and reports
B3	demonstrate an ability to assimilate complex issues and problems related to the subject matter and to reach sensible conclusions as regards the underlying issues		A Dissertation (10-15,000 words) which will assess a wide range of research, analytical and interpretative skills
B4	critically appreciate the complexities of financial regulation and the extent to which their imposition can stifle or enhance economic progress		

C. Professional Skills			
	On successful completion of their programme, students are expected to be able to:	Learning, Teaching and Assessment Strategies to enable outcomes to be achieved and demonstrated	
		Learning and Teaching Methods	Assessment Methods
C1	apply the principles, concepts and issues associated with the subject matter to solve practical problems	Case studies, to allow students to understand and discuss real life situations and to come to their own conclusions about decision-making processes within firms Visiting speakers to provide a practical setting for the theoretical issues and concepts, and empirical findings	Subject specific skills will be assessed via: Written assignments and reports
C2	demonstrate an understanding of the financial and regulatory issues and an ability to suggest practical solutions		A Dissertation that will enhance students' ability to present their research findings in a manner that is useful to interested parties
C3	develop the critical reasoning necessary to envisage the likely economic consequences of regulatory initiatives on decision making, and firms and institutions		Mainly by way of unseen examination to assess students' understanding of the main issues associated with each module

D. Transferable Skills

D. <u>Transferable Skills</u>		Learning, Teaching and Assessment Strategies to enable outcomes to be achieved and demonstrated	
	On successful completion of their programme, students are expected to show:	Learning and Teaching Methods	Assessment Methods
D1	evidence of IT and computing skills	<ul style="list-style-type: none"> • Group work via case study • Access to and use of computers to develop IT skills • Access to and use of appropriate statistical software to develop statistical skills and applications in a manner appropriate for the problem • The professional development programme (PDP) provides a framework for reflecting upon the transferability of skills and how these relate to career planning 	<ul style="list-style-type: none"> • Report writing using IT and other skills • Presentation skills • Dissertation, individual and group Dissertations • Professional Development Programme incorporating formative assessment
D2	evidence of report writing, presentation and communication skills, via, e.g., general presentations, and presentation and analysis of case studies		
D3	evidence of the application of critical reasoning based on primary and secondary sources of information		
D4	evidence of competence in understanding and applying appropriate statistical methods and an ability to use them in an appropriate manner		
D5	evidence of self-confidence that will enable students to maximise their career prospects		
D6	Effective Group-working skills and the ability to function effectively in new working cultures, and to assimilate into multicultural and cross-cultural work teams		
D7	Problem solving, Leadership and Decision-making Skills		
D8	Ability to be self-critical and integrate key skills in different contexts.		
D9	Reflective practice and ability to improve personal effectiveness		
D10	Career planning and ability to recognise and demonstrate the competencies which enhance employability		

<p>Entry Requirements</p>	<p>Direct Entry:</p> <ul style="list-style-type: none"> • A UK honours degree or an overseas degree recognised by Aston in any of the following: Finance, Accounting, Law, Law with Finance and/or Accounting. Business Studies entrants should demonstrate some prior understanding of Finance, Law and /or Accounting at an undergraduate level. • GCSE or equivalent standard in mathematics <p>English Language Requirements (for candidates whose first language is not English):</p> <ul style="list-style-type: none"> • A TOEFL score of 93 (internet-based with minimum 26 in writing, 22 in speaking, 19 in listening and 18 in reading). • An IELTS score of 6.5 overall with no less than 6.5 in writing and speaking and 6.0 in listening and reading. • A Pearson Academic score of 63 overall with 63 minimum in writing and speaking and 57 in reading and listening • Candidates with IELTS 6.0 overall with 6.0 or above in all sections, or Pearson Academic 57 overall with a minimum score of 57 in each section are offered the opportunity of attending an 8-week pre-session course. • Candidates with IELTS 5.5 overall with 5.5 or above in all sections, or Pearson Academic 50 overall with a minimum score of 50 in each section are offered the opportunity of attending a 12 week pre-session course. • Candidates with IELTS 5.0 overall with 5.0 or above in all sections, or Pearson Academic 50 overall with a minimum score of 42 in each section are offered the opportunity of attending a 16 week pre-session course. • Candidates with IELTS 5.0 overall with a minimum of 5.0 in writing, speaking and reading and 4.5 in listening, or Pearson Academic 42 overall with a minimum score of 42 in each section are offered the opportunity of attending a 20 week pre-session course. • A GMAT of 550 minimum may be required
---------------------------	--

Programme Regulations	<p>Attendance requirements:</p> <p>Students are required to attend all sessions as specified for the course</p> <p>Flexible Credit Accumulation – Receiving an award:</p> <p>The Programme Examination Board will consider students on this Mode of attendance at least annually. The Board will agree the options open to students e.g. accept a Postgraduate Certificate and withdraw from the programme or continue with the programme. Students will receive a 'statement of progress' letter at least once per year usually after a Programme Examination Board indicating: which credits have been passed, whether the credit passed entitles the student to an award and the period of study remaining until the time-limit for FCA programmes is reached (5 years from the start of the programme).</p> <p>If a student wishes to accept an award and leave before the end of the programme they must respond to the statement as soon as possible indicating they wish to receive an award</p>
	<p>Specific assessment requirements for modules / module pass marks:</p> <p>The Board of Examiners will normally condone a maximum of 30 credits of taught modules (not including the dissertation).</p>
	<p>Dissertation Requirements:</p> <p>Students who undertake the MSc Finance & Financial Regulation are required to undertake a major Dissertation of between 10-15,000 words. The Dissertation must consist of: i) a general literature review of the topic area; ii) Methodology, findings, analysis and conclusion.</p> <p>The Dissertation is not required for the award of Certificate or Diploma</p>
<p>General Regulations (http://www1.aston.ac.uk/registry/for-staff/regsandpolicies/general-regulations/) and the Regulations for the programme (above) take precedence over other information sources such as student handbooks if there is a conflict. If there is a conflict between General Regulations and Programme Regulations then General Regulations take precedence unless an exemption has been approved.</p>	

This specification provides a concise summary of the main features of the programme and the threshold learning outcomes that a student might normally be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. **The individual modules included in the programme may differ from those included in this programme specification as our programmes are subject to continuous review.** Information on admissions requirements and career opportunities is available in the relevant prospectus. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the appropriate module guides and programme handbook(s) which are available to students on enrolment.
