French

Learning another language has become increasingly important as people understand the importance of a second language in education, career and general everyday communication. Being able to communicate with others in their language helps diminish the communication barrier different languages can at times cause. French is the official language of France with up to 88% of the population speaking French as their first language. French is also spoken in other countries like Monaco, Luxembourg, some parts of Belgium and Switzerland, parts of North and Central Africa, Vietnam, Cambodia and Madagascar. French is the second most widely learned foreign language in the world making it a favourite amongst students.
