Spanish

Learning another language has become increasingly important as people understand the importance of a second language in education, career and general everyday communication. Being able to communicate with others in their language helps diminish the communication barrier different languages can at times cause. Spanish is the official language of Spain. It's also primarily spoken in countries like Mexico, Colombia, Argentina, Peru, Venezuela, Chile, Ecuador, Guatemala, Cuba, Bolivia, Honduras, Paraguay, Costa Rica, Panama and Uruguay. Those who speak English tend to find it easier to learn Spanish as English and Spanish share many words of Latin origin. Spanish is known to be a romance language as it belongs to the Latin origin. Languages belonging to the Latin origin often share a very similar grammatical structure and have many similarities in vocabulary. Learning Spanish will help you learn and understand other Romance languages such as French, Portuguese, Italian, Catalan and Romanian.
