Undergraduate Scholarships

1 Purpose and Scope

1.1 This section of the document outlines the eligibility and assessment criteria for students to receive scholarships from Aston University as part of the Higher Education funding arrangements for students starting undergraduate degree programmes in 2015/16 who do not receive sponsorship for their fees¹. This policy is correct at the time of publishing but will be reviewed annually and is subject to change.

2 General Provisions

2.1 A student who is not defined as studying an Equivalent or Lower Qualification² qualifies to be considered for an Aston Scholarship if:

(a) the student will start a new full time undergraduate degree programme³ at Aston University on or after 1st September 2015 and

(b) the student will be liable to pay tuition fees of £9,000 or £1,000 in the placement year and

(c) the student qualifies to receive student support funding as part of the finance arrangements for new students starting their degree programmes on or after 1st September 2015; and

(d) the student is not a resident of the Channel Islands or the Isle of Man (unless the student is entitled to benefit from European Community provisions relating to employment or establishment and is in receipt of UK student support funding as a home or EU student).

2.2 A student who is defined as studying an Equivalent or Lower Qualification only qualifies to be considered for an Aston Scholarship⁴ if:

(a) the student will start a new full time undergraduate degree programme at Aston University on or after 1st September 2015; and

(b) the student will be liable to pay tuition fees of £10,500 or £2,500 in the placement year and

(c) the student is not a resident of the Channel Islands or the Isle of Man (unless the student is entitled to benefit from European Community provisions relating to employment or establishment).

2.3 The household income thresholds used to assess eligibility for the award of a scholarship approved on household income will be reviewed once each academic year.

¹ For the purposes of this policy a sponsor is an external organisation, not a family member or the Student Loans Company

² As defined by the Higher Education Funding Council for England (see Glossary)

³ Not including Foundation Degree Programmes.

⁴ Students who are defined as studying an Equivalent or Lower Qualification are currently only eligible for the Aston Excellence Scholarship.

2.4 A student will not be entitled to receive a scholarship in any academic year for which they do not have to pay tuition fees unless it is an unpaid placement year or year abroad, or deferred studies, repeating as if for the first time.

2.5 With the exception of a placement year, a student will not be eligible to be considered for an Aston Scholarship approved on household income for an academic year unless they have made an application to be income assessed for the same year by Student Finance England, Student Finance Wales, Student Finance Northern Ireland, Student Awards Agency for Scotland or Student Finance Services.

2.6 A student who has their fees paid by a sponsor will not be eligible for an Aston Scholarship⁵.

2.7 A student will not be eligible to receive a scholarship in full or in part if they are, at the time when payment is due to be made to them, considered to be in debt to the University. For the purposes of this policy a student will be considered to be in academic debt⁶ to the University if they have received the third notice that a payment is overdue.

3. Approving and awarding

3.1 A student's scholarship eligibility will be approved on an annual basis. Receipt of any scholarship in any year of the degree programme does not necessarily guarantee approval of a scholarship in subsequent years. The exception to this is the Placement Scholarship, which once awarded will not be revoked unless the student does not meet the general requirements for the Placement Scholarship.

3.2 Students will not need to apply to be considered for a scholarship because Aston University will use UCAS data, household income information provided by the Student Loans Company and information held on University records for placement years, to determine awards.

3.3 Students who are eligible for one or more of the Aston Scholarships or the Aston Aspire Scholarship Programme will be required to confirm the format they wish that scholarship to take, in line with the choices offered in the first term of each academic year. This confirmation of choice will be final and will not be amended.

3.4 Students will only be approved for Aston Scholarships once in an academic year. Scholarship entitlement will normally be approved by the end of November using the information that is available to Aston University at that time. Any scholarship assessments which cannot be considered at the end of November because the required information is not yet available will be reviewed on a monthly basis until all relevant information has been received and the student's scholarship entitlement can be approved. It is not normally possible to consider a student for an award of an Aston Scholarship after 30th May of the academic year in question.

⁵ For the purposes of this policy a sponsor is an external organisation, not a family member nor the Student Loans Company.

⁶ As defined in the Aston Finance Sanctions Policy

3.5 The Student Loans Company charges interest on tuition fee loans at a daily rate from the date payments are made to universities. Aston University cannot accept any responsibility for interest applied to tuition fee loans by the Student Loans Company.

3.6 Eligibility for a scholarship approved on household income will be considered on the basis of information provided by the Student Loans Company once the student has been fully enrolled on the degree programme. Aston University aims to consider and approve scholarships based on household income within eight weeks of receiving household income information from the Student Loans Company. Any student who is approved for an income-based scholarship will be notified via MAP. Notification will be sent to the Student Loans Company about fee discounts and changes in tuition fee liability.

3.7 Eligibility for a scholarship during a placement year will be approved on the basis of information held on University records about previous scholarship approvals and placement details. Approvals of scholarships for placement years will be communicated to students via MAP usually by the end of term one. Notification will be sent to the Student Loans Company about any fee discounts and changes in tuition fee liability.

3.8 Where a student has chosen to take their scholarship in the form of tuition fee discount and has taken out a tuition fee loan from the Student Loans Company, the University is required to notify the Student Loans Company of any changes in a student's tuition fee liability. If a student has taken out the maximum tuition fee loan available to pay their tuition fee in full, their maximum tuition fee loan entitlement and payments should be adjusted accordingly by the Student Loans Company. If a student has only taken a partial tuition fee loan to pay part of their tuition fees, the student will need to contact the Student Loans Company to adjust the amount of loan they wish to borrow.

3.9 Where a student has chosen to take their scholarship in the form of accommodation discount but leaves Aston University accommodation within six weeks of the beginning of the beginning of their first term, their scholarship will automatically be re-designated as a tuition fee discount.

3.10 For Aston Scholarships where eligible students are given a choice of award, students must make their choices by the deadline that will be published on MAP.

3.11 For Aston Scholarships where eligible students are given a choice of award and they have selected payment directly into their bank account, students must provide their bank account details when asked to by the published deadline on MAP. Should a student not provide this information by the published deadline, the award will default to be a tuition fee discount. This award will not be reversible.

3.12 For Scholarships other than the Aston Aspire Scholarship Programme: once an Aston Scholarship has been approved, the fee discount or accommodation discount will be applied to the student's tuition fee/accommodation cost liability in equal amounts in terms two and three. Aston Scholarships will normally only be available to students who have been in attendance, as defined by the University throughout term one and term two and are still in attendance at the start of term three. Students who withdraw from Aston University part way through an academic year will not be eligible to receive a scholarship in respect of that year. Any tuition fee discount or accommodation discount applied to the student for that academic year as the result of an Aston Scholarship will be revoked and the full cost for that period will be applied.

3.13 Students who have been assessed as eligible for a Placement Scholarship but whose eligibility changes after the award has been confirmed, may have their award amended on a pro-rata basis to reflect the period of time that the eligibility was in place. Students will be liable to repay any overpayment of the award that may result from this.

3.14 Students who are repeating their studies that are not deferred are not eligible for scholarships regardless of whether they are repeating with attendance, without attendance, or with partial attendance.

3.15 Where a student suspends their studies and takes a Leave of Absence for a complete academic year (i.e. October- October) no tuition fee is charged and, therefore, the student will not be eligible to receive a scholarship. When a student resumes their studies, following a Leave of Absence for a complete academic year, they will be eligible to receive the scholarship in-line with the conditions that applied in their original year of entry.

3.16 Students who suspend their studies part way through an academic year will be eligible to receive a scholarship for the academic terms they have completed in full. Students who suspend their studies and return from a suspension of studies part way through an academic year will only be eligible to receive a scholarship for the terms they will complete in full. The amount of scholarship will be approved on a pro rata basis and in line with Aston University's Tuition Fees Charging Policy.

3.17 For the purposes of approving Aston Progression Scholarships, a student's academic progress will be deemed to be satisfactory if a student:

(a) is in their first year ***for the first time (i.e. not repeating the year)***, or

(b) is not in the first year and has been considered by an Aston University Exam Board to have passed and to be eligible to progress into the next stage of study.

This policy is correct at the time of publishing but will be reviewed annually and is subject to change.

2. Application eligibility

2.1 A student may be considered to receive a Postgraduate Support Scheme (PSS) Scholarship if:

- a) they are an **English** student who started their undergraduate degree at **any UK** university on or after 1 September 2012 and paid the higher rate fees that were introduced in 2012; **or**
- b) they are a **non-UK EU** student who started their undergraduate degree at any **English** university on or after 1 September 2012 and paid the higher rate fees that were introduced in 2012; **or**
- c) they are a **Scottish** student who started their undergraduate degree at any **English, Welsh or Northern Irish** university on or after 1 September 2012 and paid the higher rate fees that were introduced in 2012; **or**
- d) they are a **Northern Irish** student who started their undergraduate degree at any **English, Welsh or Scottish** university on or after 1 September 2012 and paid the higher rate fees that were introduced in 2012; **and**

- f) they are not defined as studying for an Equivalent or Lower Qualification¹¹
- g) they are holding an offer for a full time taught postgraduate Masters programme at Aston University which will start between 1st September 2015 and 1st June 2016.

2.2 A student who is awarded PSS will be eligible to receive a tuition fee scholarship of £10,000 for their full time taught postgraduate Masters programme studied at Aston University in 2015/16:

- i) If the student's tuition fee exceeds £10,000 the student will remain liable for the remaining fee outstanding,
- ii) where the tuition fee is less than £10,000 and the student is resident in Aston Student Village accommodation the balance of the scholarship will be used as an accommodation discount paid in two equal instalments in term 2 and term 3.

- iii) where the tuition fee is less than £10,000 and the student is not resident in Aston Student Village accommodation the balance of the scholarship will be paid into the student's United Kingdom bank account in two equal payments in term 2 and term 3.

3. General Provisions

3.1 There are no more than fifty-nine PSS scholarships available to be awarded.

3.2 The household income thresholds used to assess eligibility for the award of a scholarship approved on household income will be reviewed once as part of the application process only.

3.3 A student who has their fees paid by a sponsor will not be eligible for an Aston Scholarship

3.4 A student will not be eligible to receive a scholarship in full or in part if they are, at the time when payment is due to be made to them, considered to be in debt to the University. For the purposes of this policy a student will be considered to be in debt to the University if they have received the third notice that a payment is overdue.

3.5 An offer of a PSS does not constitute an offer for on-campus accommodation. Students wishing to live on campus must make an application directly to Aston Student Village.

4. Approving and awarding

4.1 PSS Scholarships will be awarded by the PSS Panel who will consider all eligible applications and allocate 59 based on eligibility criteria and personal statements.

4.2 PSS Scholarships are primarily for the payment of tuition fees. Where a successful applicant is awarded a scholarship in excess of their tuition fees they will be required to confirm the format they wish the remainder of their scholarship to take. This confirmation of choice will be final and will not be able to be amended.

4.3 PSS Scholarships will only be approved once in an academic year. Scholarship entitlement will normally be approved before the commencement of the degree programme. It is not normally possible to consider a student for an award once the degree programme has commenced.

4.4 Eligibility for a scholarship approved on household income will be considered on the basis of information provided by the applicant.

4.5 Where a student receives a scholarship in excess of their tuition fees and will take the remaining part of their scholarship in the form of accommodation discount but leaves Aston University accommodation within six weeks of the beginning of their first term, that part of their scholarship will automatically be re-designated as a payment into their bank account.

4.6 For PSS Scholarships where eligible students have selected payment directly into their bank account, students must provide their bank account details when asked to by the published deadline on MAP (My Aston Portal). Should a student not provide this information by the published deadline, the award cannot be paid.

4.7 Once a PSS Scholarship has been approved, any accommodation discount will be applied to the student's accommodation cost liability in equal amounts in terms two and three. PSS Scholarships will normally be available only to students who have been in attendance, as defined by the University throughout term one and term two and are still in attendance at the start of term three. Students who withdraw from Aston University part way through an academic year will not be eligible to receive a scholarship in respect of that year. Any accommodation discount applied to the student for that academic year as the result of a PSS Scholarship will be revoked and the full cost for that period will be applied. The student will be liable to repay any underpayment that may result from this.

4.8 Once a PSS Scholarship has been approved, the fee discount will be applied to the student's tuition fee liability. Aston Scholarships will normally be available only to students who have been in attendance, as defined by the University throughout term one and term two and are still in attendance at the start of term three. Students who withdraw from Aston University part way through an academic year will not be eligible to receive a scholarship in respect of that year. Any tuition fee discount applied to the student for that academic year as the result of an Aston Scholarship will be revoked and the full cost for that period will be applied. The student will be liable to repay any underpayment that may result from this.

4.9 Students who are repeating their studies are not eligible for scholarships regardless of whether they are repeating with attendance, without attendance, or with partial attendance.

4.10 Where a student suspends their studies and takes a Leave of Absence for a complete academic year (i.e. October- October) no tuition fee is charged and, therefore, the student will not be eligible to receive a scholarship. When a student resumes their studies, following a Leave of Absence for a complete academic year, they will be eligible to receive the scholarship in line with the conditions that applied in their original year of entry.

4.11 Students who suspend their studies part way through an academic year and take a Leave of Absence will be eligible to receive a scholarship for the academic terms they have completed in full. When a student resumes their studies following a Leave of Absence, part way through an academic year they will only be eligible to receive a scholarship for the terms they will complete in full. The amount of scholarship will be approved on a pro rata basis and in line with Aston University's Tuition Fees Charging Policy.

4.12 PSS Scholarships are valid for study on a postgraduate taught Master's programme at Aston University and are not transferable to another University

4.13 The PSS Scholarships are valid for programmes of study commencing in the academic year 2015/16 only and cannot be carried forward to another academic year

4.14 The PSS Scholarships are valid for the specified programme of study at Aston University and may not normally be transferred to a different programme

4.15 Applicants must provide evidence to support their application e.g. proof of being subject to the higher fees chargeable from September 2012, proof of family income, proof of being a care leaver, DSA support evidence. All evidence provided will be treated with complete confidentiality and will be used solely for the purpose of the Scholarship application. The evidence provided will not be available to any other department within the University for any other purpose

Appendix B Glossary

These meanings apply only to Aston University Home and EU Scholarship Policy 2015/16 and may not hold the same meanings or be interpreted in the same way in other documents.

Academic Term

The academic year is divided into three academic terms for undergraduate payment arrangements.

Academic year

This is the period over which Aston University teaches a programme. For most undergraduate programmes, this normally begins at the start of October and ends in the middle of June. Students should normally be in attendance during this period.

Alumni Scholarships

These Scholarships are offered by the Development and Alumni Relations Department of Aston University from funds donated by alumni of Aston University. These Scholarships might be named after a specific donor or may be from a general fund donated by more than one donor.

Alumni Named Scholarships

These Scholarships are offered by the Development and Alumni Relations Department of Aston University from funds donated by alumni of Aston University. These Scholarships are named after a specific donor.

Aston Scholarship

There are two types of Aston Scholarships. The first are not approved on household income and are approved on the basis of academic excellence¹² or placement¹³ details. These are the Aston Excellence and the Aston Placement Scholarships. The second type of scholarships is approved based on the household income. These are the National Scholarship Programme awards, and the Aston Progression Scholarship.

Attendance

For the purposes of Aston Scholarship approvals, a student is considered to be in attendance if Aston University's student records systems show that they are a current student. Attendance requirements to pass a degree programme may differ and should be clarified with the specific programme leader.

Care leaver

For the purposes of this policy a care-leaver has identified this at pre-enrolment and is defined as "If you were looked after for at least 13 weeks since the age of 14, and were in

¹² If the student has GCE A level grade AAB or above, or equivalent (see the Appendix for definition of equivalences).

¹³ If the student takes a paid placement year or year abroad, the tuition fee for that year will be just £1,000. If the student takes an unpaid placement year, there will be no tuition fee.

the care of the local authority and/or a health and social care trust on your 16th birthday” (Buttle Trust)

Deferred studies

This is when exams and/or assessments are delayed until an agreed period of time has elapsed.

Equivalent or Lower Qualification

A student holds an Equivalent or Lower Qualification¹⁴ if they already hold an awarded qualification which is at the same level as or is higher than the programme they will be studying at Aston University.

ERASMUS fee waivers

Students who undertake a work or study placement outside of the UK but within the EEA may qualify for financial help from an organisation called ERASMUS. In some cases, ERASMUS will pay the student’s tuition fees for their placement year and this is called an ERASMUS fee waiver.

EU student

This is a student who is an EU national (or the relevant family member of an EU national) and who qualifies to be considered for a tuition fee loan from the UK government. These students cannot be charged more than £9,000 for their tuition fees. The rules about who qualifies as an EU student depend on the immigration status of the student and their family members and where they have all been living.

Home student

This is a student who qualifies to be considered for a tuition fee loan and grants and loans for living costs from the UK government. These students cannot be charged more than £9,000 for their tuition fees. The rules about who qualifies as a home student depend on nationality, the immigration status of the student and their family members and where they all have been living.

Household Income

This is the household income as calculated by the relevant funding authority for a student’s application for student funding from the UK government. It is not possible for Aston University to accept any alternative assessment method of a student’s household income.

Maintenance grant

This is a grant for living costs from the UK Government which is assessed and awarded by the relevant Student Finance national body. Students cannot receive the Maintenance Grant and the Special Support Grant at the same time.

¹⁴ As defined by the Higher Education Funding Council for England

My Aston Portal (MAP)

This is the Aston University online student portal through which students can view and update personal information and find information about their programme. Students will be able to access information about the progress of Aston Scholarship assessments and approvals from their student homepage on MAP.

Re-enrolment

All students are expected to re-enrol each September, irrespective of their start date. The purpose of re-enrolment is to confirm that the student accepts the University's terms and conditions and the University's Regulations for that specific academic year. The re-enrolment process is also used to update any changes to the student's personal information. Re-enrolment is via MAP and the student will be emailed when the MAP task is available for the student to complete.

Repeating studies as if for the first time

This is when exams, assessments or modules are retaken but are treated as a first attempt and the mark the student receives is not limited to the pass mark, this is usually due to exceptional circumstances that are agreed on an individual case by case basis.

Repeating studies with attendance

This is when a student does not progress to the next level of study and has to retake exams and/or assessments in the following year and is required to attend all of the lectures, classes and tutorials for those modules.

Repeating studies without attendance

This is when a student does not progress to the next level of study and has to retake exams and/or assessments in the following year and is not required to attend any of the lectures, classes and tutorials for those modules.

Repeating studies with partial attendance

This is when a student has to retake exams, assessments and/or modules in the following year and is required to attend some of the lectures, classes and tutorials for those modules.

Sandwich placement year

This is a period of industrial, professional, linguistic or occupational training/work experience or study abroad which is approved by the University and forms part of the assessment for a sandwich degree or language degree at Aston University. Sometimes a student is paid during their placement for the work they do by their placement employer which is called a paid placement. In other cases, students do not receive any money from their placement employer for their work and this is called an unpaid placement. If the placement takes place outside of the UK then it is considered to be a work or study placement overseas.

Satisfactory academic performance

For the purposes of Aston Scholarship approvals, a student is considered to have a satisfactory academic performance if they have been accepted to start the first year of their programme or they have been considered by an Examination Board to have passed and to be eligible to progress into the next stage of study.

Special Support Grant

This is a grant for living costs from the UK Government which is for students who have an entitlement to receive Social Security Benefits (for example they have children or are disabled). It is assessed and awarded by the relevant Student Finance body. Students cannot receive the Special Support Grant and the Maintenance Grant at the same time.

Stage of study

Stage 1 equates to the entry to year 1 of a degree programme,
Stage 2 follows stage 1 after successful completion of that year of study,
Stage P is the placement/sandwich year and often follows stage 2,
Stage 3 follows stage 2 after successful completion of that year of study for those students whose programme of study is made up of four or more taught years of study e.g. MPharm,
Stage F is the final year of study of a degree programme.
