Contractors please note that Car Park 12 will no longer be available for you to park. Please use Car Park 5 (see directions and below for map). This car park will be monitored and a daily rate of £5.00 will apply. There is no limit to how many entries and exits can be as long as you keep a valid ticket. Contractors will also require a code for the use of the Car park. This is available by contacting the ECD Project Manager you are working for.
