

Immunisation Policy

We recognise, where possible, that children are vaccinated in accordance with their age. If children are not vaccinated, it is the responsibility of the parents to inform the nursery to ensure that children / staff / parents are not exposed to any unnecessary risks of any sort. The nursery manager must be aware of any children who are not vaccinated within the nursery in accordance with their age. Parents who choose not to vaccinate their children will be informed of the sickness and illness policy and the increased risk of illness when children are in close proximity.

Parents need to be aware that some children in the nursery may not be vaccinated. This may be due to their age, medical reasons or parental choice. Our nursery does not discriminate against children who have not received their immunisations and will not disclose individual details to other parents.

Information regarding immunisations should be recorded on children's registration documents and updated as and when necessary, including when the child reaches the age for the appropriate immunisations.

Emergency Information

Emergency information will be kept for every child and will be reviewed every six months. Parents are reminded to update their information and inform us of any changes regularly through newsletters and the parent notice board.

Internal use only
